

## *Mistakes To Avoid*

### While Looking For A Home On Rent

A number of factors need to be considered while searching a home on rent. Here we have listed certain mistakes that one must avoid while looking for a rental home.

#### Mistake #1

### Not Recording Existing Damage

Document and keep record of all the existing damages in the property. This will ensure that you are not held liable for those damages later on.

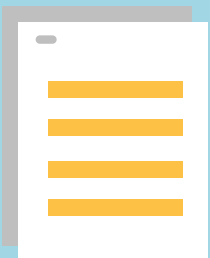

#### Mistake #2

### Going Out Of Budget

Renting a house that's too expensive may derail your finances in future. So, make sure that you do not rent a home that exceeds your budget.

#### Mistake #3

### Not Reading Rental Agreement

You should properly read and be well versed with the entire rental agreement before taking the property on rent.

#### Mistake #4

### Snubbing Renter's Insurance

When you rent a property, get it insured. This will protect your rental home from unforeseen conditions.

#### Mistake #5

### Not Visiting It Physically

Make sure that you physically visit and check out the property once, before taking it on rent.
