

Get Higher ROI For Your Rental Property

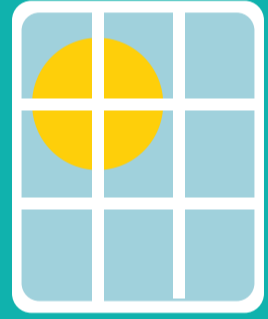

Curating a rental property as per the needs of prospective tenants can help in increasing ROI from the property.

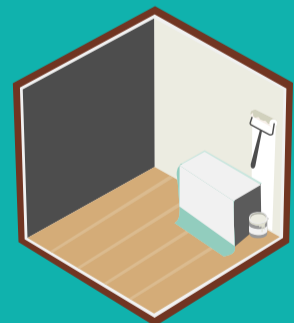

Make sure your property is livable before listing it. Add to the curb appeal by planting trees & flowers and replacing the fence, if required.

Clean the doors & windows to make way for natural light. You can also add lamps to illuminate dark areas.

Replace the outdated kitchen appliances with new electronics equipped with latest technology.

Paint interior and exterior walls of the property for fresh and inviting look.

Clean & ventilate the property before showing it to prospective tenants. Consider spraying mild fragrance for the desired effect.
